...AND A HAPPY NEW YEAR!

The Christmas celebrations started early this year for Perfect Skin Solutions, with our annual Christmas Party; we enjoyed taking the opportunity to use this time of year to get all of Perfect Skin Solutions' patients together to spend an evening full of festive fun, drinks and discounts. We were very happy with the turn out and are pleased to announce we will be doing this again next year as it was such a success.

Following this event we went to the glittering and glamorous London Aesthetics Awards 2017, which we attended at the beginning of this month and picked up a 'Highly Commended' accolade for the IS Clinical award for 'Best Clinic South England'. The event was held at The Park Plaza Westminster Bridge Hotel in London's South Bank and didn't fail to wow us once more, with top-class entertainment, champagne flowing and dancing throughout the night as well as a gorgeous a la-carte meal.

The event celebrates and recognises excellence in the aesthetic industry and we were proud to be a part of this momentous occasion!

As for the rest of the year, it's been a busy year here at Perfect Skin Solutions and one aspect of the constant improvement to our clinic and service has been the introduction of some new advanced technology for skin treatments, in order to give our patients, the very best in innovative solutions for a myriad of skin concerns. This includes the investment we have made in upgrading our Lipotherapy fat reduction, skin-tightening and cellulite reduction device to Lipofirm PRO.

This, triple action fat reduction system consists of radiofrequency skin tightening which is achieved by a deep volumetric heating of the skin, combined with a muscle contraction process as well as an external mechanical force, which together offers more effective long term body shaping in a minimal number of treatments. Results can be seen after one treatment, though a planned course, over a matter of weeks is recommended for optimum results.

Dr Patel has continued to hit the press in various national publications, giving his expert knowledge and advice on various skin issues. In the Daily Express, he gave his expert advice on the options when treating sun damage and prematurely ageing skin. The article featured Katie Price, having been photographed on holiday with her family looking “very very tanned” and sparking cancer risk fears from her Instagram fans. In the Mail Online, he spoke about a more natural approach to dermal fillers, especially in the lips. This feature outlined how stars such as Kim Kardashian and Kylie Jenner could be fuelling the desire in those between the ages of 18 and 25 to have more non-surgical procedures, such as lip fillers. In The Daily Mail, he advised on the rise in popularity of non-surgical fat reduction and body sculpting procedures to give women a more toned and curvy physique, especially in the buttocks and the hips. He commented on photos of stars such as Kendal Jenner, Amber Rose and Nicki Minaj and gave his expert opinion on what he thought they may have had by means of procedures to enhance their curves. It’s certainly been a busy time for Dr Patel and we are excited about 2018 and how he can contribute to engaging and educational articles in both trade and consumer press in the year ahead.

And finally.....

Here at Skin Perfection we are not only excited about the Christmas festivities ahead, but what’s in store for 2018. We will be keeping you up-to-date on all our special offers, events and treatment offerings and hope that you will join us in our journey to continuously delivery superb, effective and safe, non-surgical treatments to keep you looking and feeling your very best.

On behalf of Dr Patel and all the team here at Perfect Skin Solutions, we wish you a very Merry Christmas and a happy and prosperous New Year!

2018 SKINCARE TIP

We thought we would give you a skincare tip to take you through the party season and beyond! We would recommend investing in some state of the art Cosmeceutical skincare, to really get your skin glowing this Christmas. We offer a range of Cosmeceutical, medical-grade products for a range of skin concerns. During the party season, you want to keep your skin looking smooth, hydrated and full of zest, so we would recommend AlumierMD medical skincare to really give your skin a boost.
